Feb -aug 2023

DOT NET Full Stack Developer
Course from Palle Technologies

LOKESH S

Software Developer
:Proficient In Dot Net

OBJECTIVE

Seeking an software developer position to apply my programming skills and contribute to innovative software solution in a collaborative team environment

WORK EXPERIENCE

Software Engineer

- **Microhard Infotech LLC**

July 2024 – Present | Bangalore

Led development and integration of the Megvii AI Camera project, an AI-based facial recognition system used for attendance tracking, successfully implemented as part of the TAACS platform.

Contributed to various modules in the TAACS (Time Attendance & Access Control System) and AMS (Asset Management System), implementing key enhancements and client-requested features.

Developed and supported Inventory Stock Management and Barcode Scanning projects, enabling automated and accurate tracking of physical assets.

Worked across multiple real-time systems involving API integration, WebSocket communication, and data processing pipelines.

Gained practical experience in debugging complex issues across different layers of the application, from UI to backend services.

Continuously learning and applying .NET Core for building scalable and high-performance backend components.

INTERNSHIP

- **Palle Technologies**

Dotnet Full Stack Developer

Trainee Engineer

Feb - august 2023
