EDUCATION

Government College of Engineering Salem

Bachelor of Engineering in Computer Science

Salem, Tamil Nadu

Sep. 2020 – May 2024

EXPERIENCE

Software Developer

Karpine Tehnologies

Aug. 2024 – Present

Begaluru, Karnataka

- Led the design and development of Supply Chain Management and Digital Product Passport platforms, enhancing feature delivery speed by 35% and system scalability by 30%.
- Engineered multi-tenant configuration modules, automated email systems, and advanced reporting dashboards; optimized database schema with normalization and foreign key strategies, reducing query load by 28%.
- Developed high-performance backend services in .NET 8 and C#, and crafted dynamic frontend components with Syncfusion Blazor and JavaScript, following ABP Domain-Driven Design principles.
- Delivered IoT-based anti-counterfeit and asset-tracking solutions, integrating RFID readers, tags, scanners, and MQTT messaging, accelerating deployment timelines by 20%.

PROJECTS

Evolve | *Angular, .NET, PostgreSQL, RxJS, Tailwind CSS, Git/GitHub*

April 2025 – Present

- * Designed and built a scalable idea implementation platform enabling readers to transform book insights into actionable steps and share progress.
- * Developed a dynamic frontend with Angular and Tailwind CSS, incorporating RxJS for real-time, reactive user experiences.
- * Implemented a high-performance backend using .NET 8, C#, and Entity Framework Core with PostgreSQL, ensuring efficient data management and collaborative development via Git/GitHub.

Employee Leave Management System | *ASP.NET Core, MS SQL Server, Bootstrap*

Dec 2023 – Feb 2024

- * Built a full-stack leave management system using ASP.NET Core (with Repository Pattern and SOLID principles), Entity Framework Core, and MS SQL Server for scalable backend and data persistence.
- * Developed a responsive frontend with Razor Pages, HTML, and Bootstrap, enabling employees to submit leave requests and admins to manage approvals efficiently.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, TypeScript, Angular, RxJS, JavaScript

Backend: .NET Core, C#

Database: MS SQL Server, PostgreSQL, Entity Framework Core

Developer Tools: Visual Studio, VS Code, Git, GitHub, Docker, Azure DevOps

UI/UX Tools: Figma, Canva

AI Tools: ChatGPT, Perplexity AI, GitHub Copilot

SOFT SKILLS

Problem Solving: Strong analytical mindset with a creative approach to solving challenges

Communication: Effective written and verbal communicator; able to collaborate across teams and time zones

Team Collaboration: Experience working in medium to large distributed teams; supportive team player with independent ownership when required

Time Task Management: Capable of managing multiple tasks and priorities efficiently under deadlines

Proactive Attitude: Self-motivated with a can-do mindset and willingness to work with diverse technologies
